Re: Support for SB 230

To Whom This May Concern,

As one of the physicians in rural Montana, I would like to express my support to the Senate Bill No 230 allowing speech and language pathologist to telepractice. This bill would greatly benefit the communities that do not have access to these resources such as here in Cut Bank. Thank you for taking action and taking the next step for the progress of healthcare in Montana.

This letter was made in request of our patient and fellow supporter, Ms Rebecca Forbis.
